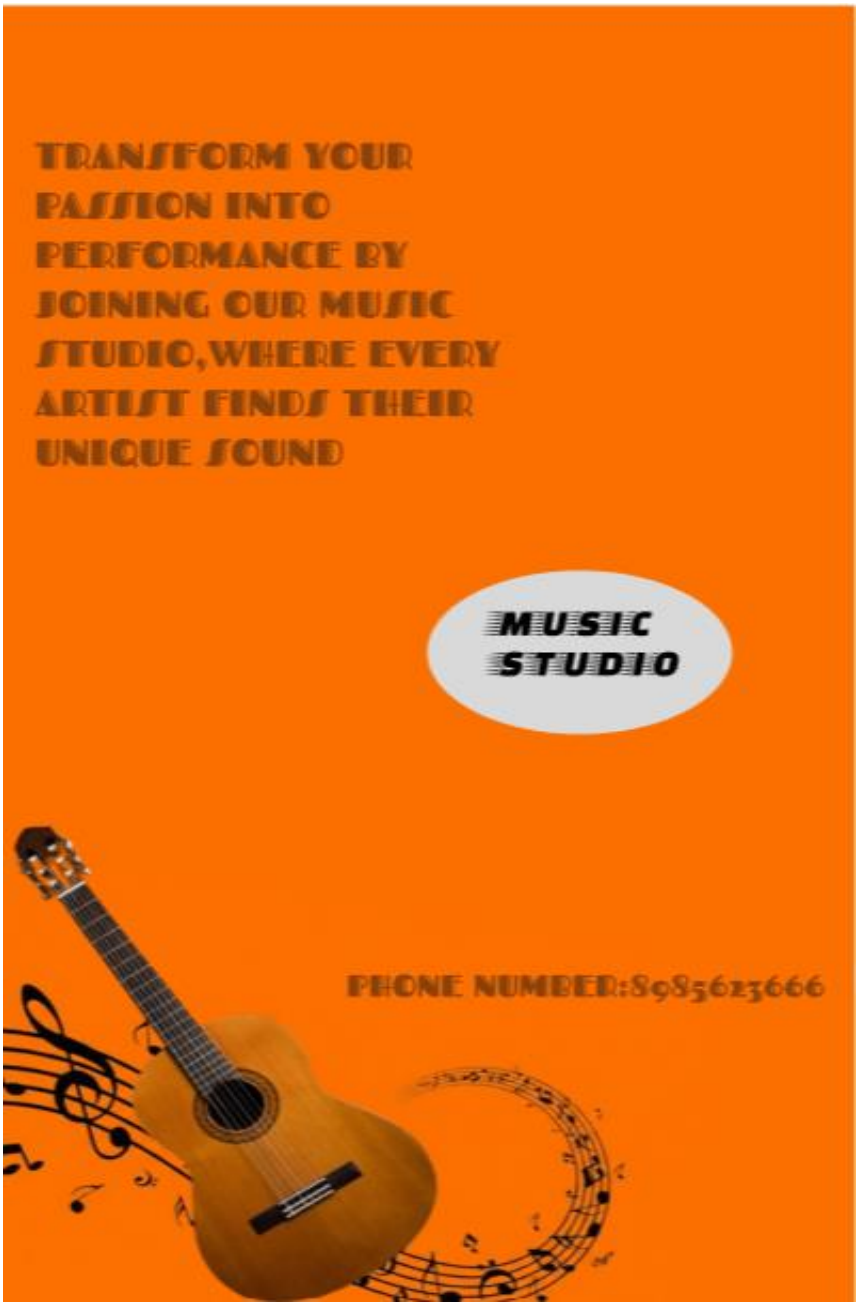
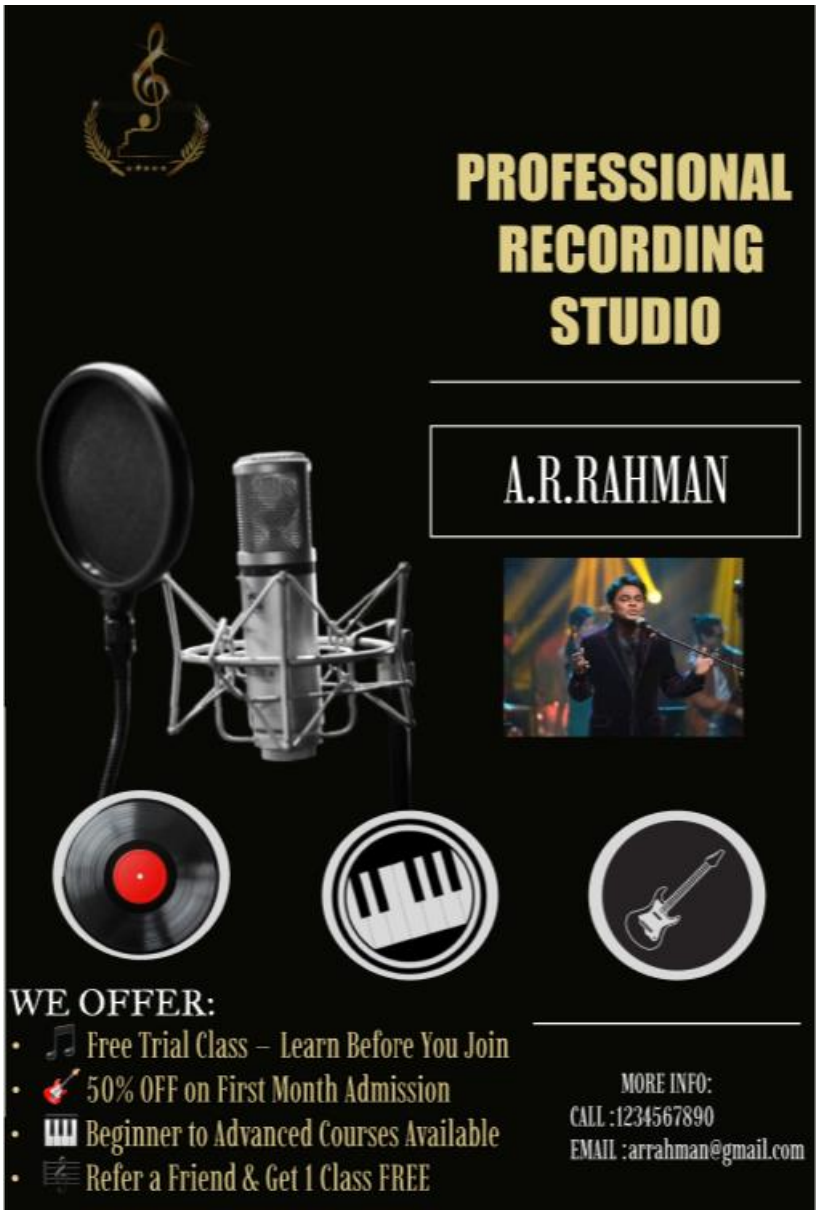
USER INTERFACE DESIGN

COMAPARSION OF UI DESIGN BETWEEN TWO FIGMA CREATION

BAD WEBSITE:



GOOD WEBSITE:



PROTOTYPE

https://www.figma.com/design/y3ceq9o2OEXqCEq5mCjuXO/Untitled?node-id=0-1&t=IyKhXn2pKS08StbA-1

The two websites have distinct designs and approaches. Here's a comparison:

BAD WEBSITE: MUSIC STUDIO

1. Design Style:

- Uses a bright orange background that grabs attention
- Simple and basic layout
- Limited visual hierarchy (everything looks equal)

2. Content:

- Contains a general motivational message
- Very little information about services
- No offers, no course details

3.Navigation:

- No proper navigation structure
- Only phone number is provided

4.Purpose:

- Mainly for general awareness
- Does not clearly explain services or offers
- Fails to attract users to take action
- Limited impact on users

GOOD EXAMPLE: PROFESSIONAL RECORDING STUDIO

1. Design Style:

- Professional and premium look
- Dark background with gold text gives studio-level feel
- Well-balanced layout

2. Content:

- Clear heading: Professional Recording Studio
- Detailed service offers listed
- Includes free trial and discount information

3.Navigation:

- Clear visual flow from heading → services → offers → contact details
- Icons guide the user's attention
- Easy to understand what information comes next
- Well-organized layout helps user navigation

4.Purpose:

- Promotes professional music studio services
- Attracts users using offers and free trial

- Builds trust and strong brand image

KEY DIFFERENCES:

- Focus: The first poster is basic and awareness-oriented, while the second focuses on professional branding and service promotion.
- Design Aesthetics: The first uses a simple and bright design, whereas the second has a premium, studio-level and visually rich design.
- Content Depth: The second poster provides detailed service information and offers, while the first keeps the content minimal.
- Navigation: The first lacks a clear visual flow, while the second guides users smoothly from title to contact details.
